TO WHOM SO EVER IT MAY CONCERN

Auronext Pharma had procured Heating, Ventilation and Air-conditioning System for its **Injection Vials Plant** from "**M/s ACV Systems Pvt Ltd**". The plant requirements were:

- * To **maintain class 10000** in the critical areas like **injection filling** and
- * RH of **NMT 25%** to be maintained in some of the areas of powder filling.

The Air-conditioning requirement was for high filtration level in the manufacturing areas as well in the laboratory areas and it required the automation for maintaining the designed temperature, RH, room pressure and class of cleanliness which was achieved by "**M/s ACV Systems Pvt Ltd**" by designing, supplying and validating the **Building Management System**.

This **Injection Vials Plant** is erected as per the **USFDA** requirements. **M/s ACV Systems Pvt Ltd.** designed and completed the total HVAC project of **Rs 2.5 crore** satisfactorily in **2010**.

For Auronext Pharma Pvt Ltd.
