TO WHOM SO EVER IT MAY CONCERN

This is to confirm that M/s ACV Systems, 332, Ansal Chamber-II, Bhikaiji Cama Place, New Delhi-110066 were the Heating, Ventilation & Air Conditioning Contractor and turn-key supplier of Chilled Water Plant, Brine Chilling Plant and Laboratory Fume Extraction System for our state-of-the-art Research & Development Centre at Gurgaon.

Their scope of work comprised of the following:

(A) HVAC System for building admeasuring 70,000 sq.ft.

1. Detailed engineering for about 18,000 sq.ft. area out of total 70,000 sq.ft. area
2. Preparation of construction drawings for entire area
3. Supply and erection of low side HVAC equipment and ducting
4. Supply and erection of chilled and condenser water piping
5. Start-up, pre-commissioning and commissioning of HVAC System.
6. System validation and documentation

(B) Chilled Water Plant, Brine Chilling Plant and Laboratory Fume Extraction System

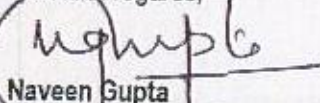

1. Detailed engineering and preparation of construction drawings
2. Manufacture, supply and erection of equipment
3. Start-up, pre-commissioning and commissioning
4. System validation and documentation

The cost to the completion of entire work was Rs.173.00 Lacs. The entire work was commissioned and handed over to us in March 2000. All the facilities created by M/s ACV Systems have since been running satisfactorily.

M/s ACV Systems have complied with high quality standards of workmanship, which are mandatory in pharmaceutical industry.

We wish them all the best for their future endeavors.

With kind regards,

Naveen Gupta
Senior Manager - Corporate Projects
